Cool urban chic, period elegance, sumptuous sophistication – an HAVIT Sanitary Ware can have as many moods and personalities as we can! Using the highest quality design and materials, each beautifully crafted basin, bidet, toilet or piece of furniture is finished to the highest specification, to ensure every bathroom will be a dream bathroom. Designed with varying sizes of bathroom in mind, the HAVIT is versatile as well as luxurious, offering options and styles such as close-coupled, back to wall and wall hung toilets and bidets, pedestal, semi-recessed and counter top bowls and vanity units that can be chosen to suit modest or generous spaces. The HAVIT is a high performance range that quality, from the hand finished sanitary ware, approved cistern fittings, to meeting all European (CE) quality standards. Which is why we are proud to offer a 5 year Guarantee with each product*. With HAVIT you get more than a functional solution for your bathroom, each piece has been designed to fit with the demands of modern luxury living. Thoughtful features such as quick release seat hinges to allow easier cleaning, soft closing seat and drawer mechanisms and anti-bacterial surfaces set the range apart. All HAVIT cistern fittings are set at 6/3 litre flushing capacity, but with an eye on the environment, WCs with the HAVIT 'Eco' marque means you can use as little as 4/2.6 litres when flushing, without compromising the effectiveness of the flush.

Futuristic Design

FOR YOU
IN WIDE VARIETY OF COLOURS
AND DESIGNS THAT MATCH YOUR MOOD AND
INTERNATIONAL STANDARDS AS WELL

Relax in Style

Innovations in the name of aesthetics and technology

technology and design combine to create a contemporary corner composition.

HAVIT TECHNOLOGY

HAVIT SANITARYWARE with its expertise, created a water saving flush systems which able to reduce the wastage of water. This gaurantees a considerable saving of water at each use. Water enters systematically and distributes evenly to the entire surface. With the rim-less technology, the toilet is cleaned with greater strength and without splashing, ensuring more effective results and maintaing the strengths and aesthetics of the products.

Installation Instruction

WALL HUNG BASIN

- 1) The rag bolt should be first grouted into the wall using cement/concrete, (as shown) as per distance between slots provided in the wash basin. The bolts should be fixed perpendicular to the wall. Allow cement/concrete to set. Check if the Rag Bolts are firmly fixed. Fix the Wash Basin in the bolt using Nut & Washer.
- 2) If brackets are use, prefer nylon or aluminum instead of iron brackets as it tends to rust.
- 3) If small basins are screwed to wall, use nylon washers and steel screws.
- 4) While fixing waste outlet, ensure that the rubber washer is placed on the outlet under the basin.

COUNTER WASHBASIN

- At the beginning
1. A skilled or experienced person should install counter lavatories.
 2. Avoid using adhesive with this product.
 3. Check the waste area and supply tubing if required.
 4. Do not open the lavatory from its protective carton until you are ready for installation.
 5. Please follow all local building and plumbing codes.

MATERIAL & TOOLS

Measure tape, keyhole or saber saw, Hammer, Glasses, Rage or Paper toweling, Drill (1/2 dia, drill bit or larger), Pencil, sealant, sharp knife or scissors.

INSTALLATION OF LAVATORY

Please Note : Please install it in a way that future removal from underneath the counter top is possible without damaging the counter top.

1. Please check the desired location for clearance between the back splash, faucet, fixture and cabinet.
2. Please cut the template.
3. Please carefully trace the template on the counter top as directed.
4. Please mark the faucet hole centerline on the counter top.
5. Please drill a 1/2" pilot on the inside of the cut line.

For Wood Counter tops:

1. Mark and pre-drill the wood screw holes at the locations shown on the template.
2. Waterproof any exposed areas of wood.

For Marble Counter tops:

1. Position the counter top upside down on foam padding to protect the surface. Mark and drill 3/6" holes 5/8" deep at the locations shown on the template.
2. Use a setting tools and hammer to secure the anchors.

For All Installations :

1. If the counter top has not been installed, install it at this time.
2. Drill the faucet holes according to the faucet installation instructions.
3. Install the faucet to the counter top according to the manufacture's instructions.
4. Install the drain to the lavatory according to the manufacture's instructions.

INSTALLATION DETAILS OF WALL HUNG

CONCEALED WALLHUNG

1. If the wall is going to be plastered for a thickness of 12 mm and a tile thickness of 6-7 mm, the projection of the bolts from the finished wall should be 66mm only.
2. If the thickness of Plastering and tile is less than the dimensions mentioned above, the bolts that are supplied along with the bracket should be moved into the wall by using a suitable spacer washer between the bolt head and the bracket frame.
3. The bracket should be buried into the floor so that the height from the center line of the bolt to the surface of the finished floor is 320mm.

MAINTENANCE

Like any other part of your houses, the bathroom can be made to look great and made to last long if it is taken care of regularly. To make your bathroom beautiful here are some invaluable tips.

Wash Basin

A mild detergent can be used to wash the basin at least once a day. After washing, the basin should be wiped out clearly to avoid water stains.

Closets

Cleanser like harpic can be used to clear the closet with soft plastic brush, at least once a day. To avoid minute discoloring, after flushing the toilet give it a once over with the soft brush.

Keep the toilet brush handy in a convenient stand nearby. In case toilet and basins, if there has been no maintenance since long period of time, water deposit and discoloration can from on the surface of areas that get wet. In such cases, these stains/marks can be removed with the help of a solution of dilute hydrochloric acid. Clean with a soft cotton cloth and warm water with soap. Do not use thinner, dry cleaning liquids or powder paste. Use a liquid cleaner at least twice a week. Use Brasso or car rubbing compound and then polish with a cloth to remove fine scratches.
